A Global Mamas Success Story

Meet **Deborah Asmah**, a seamstress in [Global Mamas'](#) Cape Coast location. She was, and remains, ambitious. Her first stepping stone was to attend a vocational school where her abilities earned her **master seamstress** status, but even a master seamstress needs a market. She joined Global Mamas in 2009, received additional training, and is very proud of the **creative designs** she has developed. The steady orders she fulfills for Global Mamas gives her the confidence that there will be a paycheck this month and the next and a year from now. This security provides the foundation for a **stable financial life**. In addition to helping her meet the day-to-day needs of her family, this income has allowed her to open her own shop and purchase land — the first step to owning her own home in Ghana! **Support Deborah** and her ambitions. Buy one of her aprons at our **Fair Trade Market** and check out [the boxy blouse she designed](#). Thanks so much for your continuing support of our Market.

South Beach Walking Tour

Saturday, March 17

Perhaps you remember Ocean Drive in the '80s ... **a very, very sleepy place**. And, now, well, it's quite different. How did it move from one extreme to the other in a 30-year time span? For answers and insight, please join us at **10:00 a.m.** on **Saturday, March 17** for a **South Beach Walking Tour** with **George Neary** (RPCV, St. Vincent and the Grenadines). Meet us under the time/date sign at [10th Street and Ocean Drive](#). George has been in the midst of South Beach's renovation since 1992 and is currently Associate VP/Cultural Tourism at Greater Miami Convention & Visitors Bureau. He's been so much a part of Miami Beach that December 13 was proclaimed "George Neary Day" by Miami Beach's Mayor and City Commissioners. After the tour, we'll **meet for lunch** at [Puerto Sagua](#), 700 Collins Ave. Please RSVP so we can give the restaurant a heads up. Hope to see you there!

Nike Missile Base Tour

Sunday, April 8

Do you remember, or have you heard about the **Cuban Missile Crisis**? Did you know that **Everglades National Park** houses one of the best-preserved relics of the **Cold War** here in Florida?

An historic [Nike Hercules Missile Site](#), called Alpha Battery or HM-69, remains virtually the same as it was when official use of the site was terminated in 1979. This missile base was built by the United States Army Corps of Engineers, completed in 1964 **at the height of the Cold War**, immediately following the Cuban Missile Crisis of October 1962. At a time when national security against Soviet attack was America's main priority, the United States Army chose this [strategic site within Everglades National Park](#), located 160 miles from the Cuban coast, to build an anti-aircraft missile site.

We've arranged for a **tour of the site**, to be given by **Ranger Leon Howell**, on **Sunday, April 8th**, at **2:00 pm**.

This exciting and timely tour will last approximately 90 minutes. There's **no charge for the tour**, but the park will charge its **regular entrance fee**. If you'd like to carpool (either provide one or get a ride) into the park, please be at the Coe Visitors Center by **no later than 1:30 pm**.

After the tour, some of us will be going to one of the local Mexican restaurants to partake of some yummy "vittles," and we'd be happy for you to join us!
